Professional Summary

Full-Stack Developer building secure web applications with React, TypeScript, Node.js, Python, and SQL. Skilled in frontend development, backend architecture, and REST API integration, with a focus on secure authentication and OWASP Top 10 mitigation. Computer Science graduate ranked 3rd among 120+, currently studying Cybersecurity.

Technical Skills

Frontend: React, Next.js, Angular, TypeScript, JavaScript, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap.
Backend: Node.js, Express.js, Python, FastAPI, Django, C#, ASP.NET Core, Java, Spring Boot, REST APIs, WebSockets.
Databases: SQL, PostgreSQL, MySQL, MongoDB, SQLAlchemy, SQLModel, Alembic.
Security: OWASP Top 10, JWT, OAuth 2.0, RBAC, Row-Level Security, secure code review, Wazuh, Burp Suite, Nmap.
Tools: Git, GitHub, Docker, Linux, Vite, Vercel, Netlify, Render, Railway, Claude Code, Cursor, Antigravity.

Work Experience

SocShield DZ — Hybrid, Algeria
Full-Stack Developer — Application Security — Aug 2023 – Present

- Developed SaaS dashboards and 20+ REST API endpoints, integrating relational data and authentication across four access levels.
- Hardened application workflows through code reviews, input validation, OWASP remediation, SIEM monitoring, and vulnerability assessments.

Technologies: React, TypeScript, FastAPI, PostgreSQL, Pydantic, JWT, Wazuh, Burp Suite, Nmap.

FlyRank Corp. (FlyRank AI) — Remote, USA
Back-End AI Engineering Intern — July 2026 – Aug 2026

- Developed REST APIs and asynchronous workflows with request validation, structured error handling, and secure credential management; containerized services using non-root execution.

Technologies: Python, FastAPI, Docker, Linux.

Selected Projects

LeakShield — OSINT & Data-Breach Monitoring

Built a multi-tenant platform for digital asset monitoring, background data collection, and threat intelligence dashboards with database-enforced tenant isolation.

Technologies: React, FastAPI, PostgreSQL, Celery, Supabase, Wazuh.

Devfolio — Portfolio Builder

Developed portfolio generation and GitHub integration with OAuth authentication, token-based sessions, secure password storage, and database migrations.

Technologies: Next.js, TypeScript, FastAPI, PostgreSQL, Alembic, OAuth 2.0, Argon2.

AI Fraud Detection — Financial Security Platform

Built a full-stack platform integrating an AI model to analyze financial transactions and flag potentially fraudulent activity.

Technologies: Python, React.

Pulse-Chat — Real-Time Messaging

Implemented authenticated multi-room messaging, automatic reconnection, and connection monitoring; tested with 100+ concurrent connections.

Technologies: React, TypeScript, FastAPI, WebSockets, JWT.

Education

WSB University — Kraków, Poland
B.Sc. in Cybersecurity — Sept 2026 – July 2030

Université Dr. Moulay Tahar — Saïda, Algeria
B.Sc. in Computer Science — Ranked 3rd among 120+ — Sept 2023 – June 2026

Certifications & Achievements

Certifications: Google Cybersecurity Professional (2024); Huawei HCIA-Datacom, Simplilearn CCNA Network Associate, NVIDIA Fundamentals of Deep Learning (2025).

Achievements: 2nd Place, DevRush 1.0 National Programming Competition; National Finalist, FORSA Algérie Télécom Hackathon (2025).

Languages: Arabic (Native) | English (EFSET C1; IELTS 6.5) | French (TCF C1).
